1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-53, 55-57, 66-104 and 113-251, drawn to DC powered system.

Group II, claim(s) 54, 58-65 and 105-112, drawn to voltage regulation.

Group III, claim(s) 254-267 and 328-357, drawn to a rectifier.

Group IV, claim(s) 268-280, drawn to remote power supply.

Group V, claim(s) 281-327, drawn to microprocessor supply.

Group VI, claim (s) 252-253, drawn to a non understood invention and not based on US practice and therefor at best classified as miscellaneous in 363/168

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is a Dc powered computer system, Group II deals with a voltage regulation module, Group III deals with an AC to DC conversion, Group IV deals with power supply for a remote unit and Group V deals with powering a microprocessor system.

3. A telephone call was made to Alfred Wiedmann on 10/01/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
